President Roosevelt Leaves the Flagship at Colon and Travels Through the Little Republic, Warmly Welcomed Along the Line.

(BY THE ASSOCIATED PRESS-P.M.)

COLON, Nov. 15.—President Roosevelt left the flagship Louisiana at 7:30 o'clock this morning and landed at Colon, Panama, at 10:30 a.m. He was met by the Panama Railroad, Chief Engineer Stevens, General Manager Rier of the Panama Railroad and other high officials. All the school children of Colon were gathered in groups about the pier where the President landed, and sang the "Star Spangled Banner" and "America."

DR. MANUEL AMADOR, President of Panama, who welcomed President Roosevelt to the republic.

The President's landing here so early in the morning was a most surprising to the inhabitants of this town as he was his early arrival here yesterday.

According to the programme he was not to come ashore at Colon until 8 o'clock a.m. The pier at which he landed was decorated with palms and bunting, and was surrounded by crowds of people anxious to see him, but there were no representatives of the government of Panama present.

It was shortly after this that Minors Shonts and Stevens, their wives and others arrived, and went to the President's landing, and met to President Amador's party, who were at breakfast.

President Amador and his suite hurriedly went to meet President Roosevelt and found him upon the platform of his car, where the latter very cordially received Senator Amador and the other party, personally holding him in his arms.

Donovan has a claim against Platt in a business deal, which dates back to the time when Platt first met Mrs. Mayhew, then Carrie Thompson, formerly one of the "Gilded Age" beauties, and the plot was laid, Donovan charges, which led to the marriage of the aged Senator and Mrs. Mayhew.

(BY DIRECT WIRE TO THE TIMES.)  
NEW YORK, Nov. 15.—[Exclusive Dispatch.] Following the formal separation of Senator Platt and his wife caused a conference to be arranged today between James Donovan of Chicago and Mae C. Wood of New York, each of whom is fighting for a portion of Senator Platt's fortune. Mae Wood claims to be Platt's legal wife by marriage, performed before he was wedded to Mrs. Jane Mayhew in Washington, in 1903.

**MOQUIS TAKEN BY CAVALRY.**  
WARFARE STARTS FROM DEMAND FOR SCHOOLS.

Enlightened Indians Want More Modern Ideas, but Other Factions Oppose Progress, and Over One Hundred Are Taken Prisoners to Be Held at Fort Defiance.

(BY THE ASSOCIATED PRESS-P.M.)  
AZTEQUE (N. M.) Nov. 15.—Albert Lewis, and Troop K, Fifth Cavalry, have arrived at Fort Defiance in the Navajo reservation, with the members of the Moqui Indian tribe living in Oraibi Pueblo, in Northern Arizona.

The Indians were arrested and brought as captives on account of the serious warfare within the tribe which has been going on for several weeks. The more enlightened of the Moqui Indians have insisted on the introduction of schools into the pueblo. Another element has objected to modern ideas with the result that open warfare broke out.

The cavalry was ordered from Fort Wingate to restore order. When they arrived, Lewis found that the conservatives had laid siege to the pueblo. He was unable to bring about peace among the factions. The Indians will be held at Fort Defiance until order has been restored.

allies the railroad grade rises like a ribbon across it, being the only land in sight.

These passengers state that at Seattle little or no damage has been done by the storm, it being in the rural districts to the east and north, where the storm has wrought its havoc. According to them, from Saturday until Wednesday, since when there has been no communication with the Sound, the rain poured down as if shot through a pipe. It was accompanied by a heavy wind which made it hazardous for pedestrians to venture out. They give the Northern Pacific Railroad high praise for the efforts made to keep its traffic moving. Passengers were taken to Tacoma by bus and from there brought to Portland over the normal route. Even this is now no longer possible since the bridges at Olney and Kelso have been swept away. North-bound passengers who left here on this road were unable to get by Castle Rock and most of them returned to Portland.

**TWO IMPORTANT QUESTIONS.**  
President Roosevelt apparently is much concerned with the Panama and the Indian labor question, and will discuss it tomorrow with Consul Mallet and Editor De Lister of the *Journal*.

The President has arranged to visit Colon and Cristobal Saturday morning with Messrs Shonts and Stevens and investigate the complaints regarding the reconstruction of Colon.

**ARRIVAL IN PANAMA.**  
ADMIRING CROWD EXCITED.  
(BY THE ASSOCIATED PRESS-P.M.)  
PANAMA, Nov. 15.—The train which brought the Presidential party from Colon arrived in front of the Tivoli Hotel at Ancon at 10:30 o'clock a.m. There President Amador and his party awaited, and President Roosevelt and party were conducted to La Boca, at the Pacific entrance of the canal, where the steamer Bolivar was in waiting to take the President on a cruise about the bay.

At 11 o'clock the Bolivar left her pier, passing under the Flamenco, Naco and Perico islands, afterward returning to La Boca. All the steamers, dredges and tugboats in the bay were decorated with flags, and when the President passed they saluted, blowing their whistles, while the crews of several American steamers cheered the President frantically.

At noon the trip about the bay ended, the President landing at La Boca, where he had lunch.

**FELT LIKE COMMANDER.**  
Speaking to the newspaper men, the President said he felt like the commander of a great and successful army.

"Though it rained from 10 o'clock a.m. to the great did not interfere with the cruise. The President seemed determined to obtain all the information he possibly could, he asked questions of all the canal employees. During his trip from Colon he met a number of work trains full of carmen and rock from the Culebra cut, and saw several steam shovels working.

From La Boca President Roosevelt came this afternoon to Panama City. From the railroad station he was driven up Central avenue to the Cathedral Plaza. The streets were filled with people, who constantly cheered the President.

**SCION TRIED FOR BIGAMY.**  
The matrimonial misadventures of Michael MacDonagh, scion of a wealthy Belfast family, graduate of the University of Dublin, civil engineer and globe trotter, brought him before Judge Clifford in the Criminal Court today, where he is being tried for bigamy. MacDonagh does not deny he has two wives living, but he sets up in extenuation that both marriages were forced upon him. Lapse of memory, he explained, was responsible for one marriage, and three determined prospective brothers-in-law for the other. Both wives, Maria Elizabeth Williams and Clara Blingworth, confronted the recalcitrant husband in court. The latter was flanked by her mother, Mrs. Benjamin Williams, to whose persistence MacDonagh owes his present plight. When he disappeared out of the family's ken, six months ago, she placed detectives on his trail and accomplished his arrest recently in St. Louis.

**HILL PROPERTIES MERGER.**  
Although Vice-President Miller of the Burlington denied any knowledge of a definite merger of the Northern Pacific, the Great Northern and the Chicago and Burlington and Quincy, which are generally known as "the Hill properties," additional rumors were current today to the effect that a far closer relation between the roads would be created. The added strength which the Harriman interests have acquired through the recent deposition of President Fish of the Illinois Central was given as the reason for this.

This question is being discussed here. It is now seven months since the earthquake occurred, and while it was intended that the money subscribed was to be used for immediate relief, evidence is being brought to light showing that a small per cent. of the money raised has been sent to San Francisco. Even of the amount sent direct, the claim is made that part has been used improperly.

## THE LINDLEY TIME.

**Public Sympathy Rising in Favor of the Independent Republican Candidate—Straw Votes Show His Lead. Fine Meeting in the Fourth Ward.**

STRAW votes in the last indicated yesterday the trend of local sentiment in the majority contest. On a Spring-street car "straw vote" gave Lindley 19, Harper 1, Gates 1. A poll of a precinct in the Fourth Ward (Lindley 19, all others 1).

Another straw vote in a local restaurant gave Lindley 14, Harper 5, Gates 1. Even "do as do" is apparently swinging into line. A carefully conducted poll of the precincts of the Fourth Ward, the most Democratic stronghold shows Lindley in the lead with a fair plurality. In this precinct Lindley is leading Harper.

The surprising strength of Dr. Lindley in this precinct is explained by the fact that at least half the families there know him personally by reason of his connection with the Dispensary of the Medical College. They follow him to the right man for Mayor, a man who knows the working people, their needs and their wrongs.

There was a gathering of clans at the Dispensary of the Medical College on any preceding day of the campaign. Rapidly the clouds are clearing back from the city, revealing the different candidates and issues in their true light. The result is a marked increase in Lindley's campaign. Scores of business men who never before took more than a passing interest in a city campaign are coming forward and asking what they can do to help elect Dr. Lindley.

For the first time that voters of Los Angeles have been brought face to face with a crisis in municipal affairs, the first time that the walking delegate has played a real part in a campaign, and the men who furnish the brain and brawn to build Los Angeles are determined that we shall take no chances at following in San Francisco's footsteps.

To entertain the proposal contained therein. Respectfully,  
E. O. EDGERTON,  
W. T. CRAIG,  
D. W. EDELMAN.

Chairman.  
JAMES C. HANLEY,  
Secretary.

ALL OFF.  
The Democrats having declined the proposition, the proposed arbitration is all off, as a matter of course.

The Republican City Committee was not in session last evening but members stated that they would take the matter up today. As the arrangement has already been nullified, there is nothing to take up.

WILL BOOM LINDLEY.  
PRECINCT CLUB FORMED.  
The Third Ward Precinct Lindley Club was organized last night at a meeting of Republicans of that section of the Third Ward. This is the first of many similar clubs that are to be organized throughout the city for the promotion of the candidacy of Dr. Walter Lindley for Mayor.

There was a large attendance of voters of the precinct, the meeting being held at the Hotel Bellevue Terrace, Sixth and Figueroa streets. Gavin W. Crisp was elected president, and Dr. Lindley was elected secretary. The development of the last few days have brought about other changes.

There still are many men whose names remain on the list because they are friendly to Mr. Gates and do not desire at this time to withdraw from the race. Lindley, however, in private conversation they assert their preference for Dr. Lindley.

A large portion of the men whose names were placed in the list in the instance on the Non-Partisan committee, but who say that, while lending support to the movement, they never took any active part therein—these men say they consider that the purpose of the organization to obtain the nomination of a honest and capable candidate for Mayor was accomplished when Dr. Lindley was elected by the Republican convention.

SWITCH TO LINDLEY.  
Many of the first supporters of the Non-Partisan movement have declared openly for Dr. Lindley and have withdrawn from the Non-Partisan committee.

One of the latest of this number to make his position known is E. B. Hughes. "Dr. Lindley is an ideal candidate," said Mr. Hughes yesterday. "We need no more for a man to run for Mayor than Dr. Lindley. He is honest, capable, and has the confidence of the people."

Dr. Lindley has been identified with the activities of Los Angeles for a generation. He has made a success of everything he has attempted. Those who know him best will be equally as successful as chief executive of the city.

"He is just the kind of man we want. He has an ambition to serve in that high position and no one can question his sincerity of purpose. He should be elected and I believe he will be elected."

Dr. Lindley is prominent among the medical men who are enlisted in the Lindley cause. He has taken an active part from the start in promoting the realization of the ambition of his professional "brother."

"THE WINNING CANDIDATE," said Dr. Kurtz, "and rightly so, for he is possessed of the qualifications of an efficient executive. The physical and mental qualities that make him a success in his profession are the same that make him a success in his civic life."

## NON-PARTISANS FOR LINDLEY.

**Break Ranks in Support of Republican Nominee.**

**Purpose Gained in Naming of Clean Candidate.**

**Latest Developments Bring Many into Line.**

More breaks have occurred in the ranks of the original Committee of One Hundred of the Non-Partisan City Central Committee. That organization of Dr. Lindley by the Republican convention caused the withdrawal of a number of names from the list of so-called non-partisans. The development of the last few days have brought about other changes.

There still are many men whose names remain on the list because they are friendly to Mr. Gates and do not desire at this time to withdraw from the race. Lindley, however, in private conversation they assert their preference for Dr. Lindley.

A large portion of the men whose names were placed in the list in the instance on the Non-Partisan committee, but who say that, while lending support to the movement, they never took any active part therein—these men say they consider that the purpose of the organization to obtain the nomination of a honest and capable candidate for Mayor was accomplished when Dr. Lindley was elected by the Republican convention.

OMAHA (Nebr.) Nov. 15.—(Exclusive Dispatch.) Mrs. Rita Gurney of Nebraska, who was married in the District Court here her third suit for divorce from her husband, William Gurney. The three suits have been filed within the last two years.

Mrs. Gurney has been twice married and twice divorced from her husband, and she says that if she obtains a third divorce from him she will never again become his wife.

She asks for the divorce this time on the grounds of cruelty, desertion and non-support, the same grounds on which she was granted the two previous divorces.

TRICKED BY DYSPESIA  
The Doctor Couldn't Tell Where The Trouble Lay.

For the past seven years I have been a victim of dyspepsia and chronic constipation and have consulted the most noted specialists to be found on disease of this character. None, however, seemed to locate the difficulty or give relief. In addition to this medical treatment, I have resorted to the use of many remedies and have given them faithful trial, but all to no purpose.

Upon the recommendation of a close friend, I purchased a 60c package of Stuart's Dyspepsia Tablets and in less than five days noticed that I was feeling better. I continued to use the tablets after each meal for one month and by that time my stomach was in healthy condition, capable of digesting the food which I was eating. I have not experienced any return of my former trouble, though three months have elapsed since taking your remedy.

We wish that you could see with your own eyes the countless other bona-fide signed letters from grateful men and women all over the land who have suffered years of agony with dyspepsia, tried every known remedy and consulted eminent specialists without result, until they gave Stuart's Dyspepsia Tablets a trial. Like the doctor above, they couldn't locate the seat of the trouble.

Dyspepsia is a disease which has long baffled physicians. So difficult of curing, many benefits have been seen next to miraculous. There is only one way to treat dyspepsia—to supply the elements which nature has ordained to perform this function. It is to cause them to enter the digestive organs, supplying the fluids which they lack. Stuart's Dyspepsia Tablets alone fill these requirements, as is shown by the fact that 40,000 physicians in the United States and Canada unite in recommending them to their patients for stomach disorders.

We do not claim or expect Stuart's Dyspepsia Tablets to cure anything but disordered conditions of the stomach and other digestive organs, but this they never fail to do. They work upon the inner lining of the stomach and intestines, stimulate the gastric juices and aid in the secretion of juices necessary in digestion.

ARGUES SEGREGATION OF UNFIT FOR PARENTS.

SAID MARCH, WHO ADVOCATED THE MOST RADICAL CHANGES IN THE PRESENT MODE OF DEALING WITH THE UNFIT.

THE ASSOCIATED PRESS—A SENATOR at the session of the American Association yesterday when Mr. March advocated the most radical changes in the present mode of dealing with the unfit.

March should use every possible argument of preventing the dissemination of the disease, said March, who is a member of the Pennsylvania state board of charities. He is shown that the parents of the children should be taken into consideration, and that there should be no home for the children from whom the parents have been removed.

There are many men and women who are taking the children from their parents and putting them in institutions, said March. He is striking at the root of the evil and we remove them from the home. When we strike deeper we prevent children being born who are likely to become unfortunates.

Board Lays His Letter Aside, Saying It Is Too Important for Hasty Action. University President Thinks He Should Have Been Consulted Before Publication of Reformed List.

BY THE ASSOCIATED PRESS—A NEW YORK, Nov. 15.—At the meeting of the Executive Committee of the Simplified Spelling Board held today in the offices of the board, the resignation of David Starr Jordan, president of Stanford University, was received but no action was taken upon it.

The committee decided to defer action until the annual meeting of the full board to be held early in the new year. Some of the committee expressed the opinion that the matter was too grave to be acted upon hastily and furthermore it was "mostly newspaper talk."

President Jordan had been quoted as saying that he objected to having the committee commit itself to such spelling as "thru," without first consulting him about it.

## OVER EIGHT THOUSAND MURDERED ANNUALLY.

[BY THE ASSOCIATED PRESS.—A.M.]

CHICAGO, Nov. 15.—"During the last five years 45,000 persons were murdered in the United States. More than 100 were murdered last year. This appalling total has been due to the way in which the law was administered. And the law itself is bad and inefficient. It is burdened with restrictions and technicalities, and in almost every case, the criminal has nine chances of escape to one of being found guilty."

So declared Judge Marcus Kavanagh last night in an address before the alumni of St. Ignace College, gathered at a banquet at the Great Northern Hotel. He spoke of "Enforcement of the Law in Large Cities," and vigorously assailed the operation of the courts under the jury system.

That the United States is the most criminal country in the world, the jury system the most loose and antiquated, and the law open to attack were among the assertions made by Judge Kavanagh. Figures and crime statistics of the great countries of the world also were given and it was shown that while England and Wales had only 27 murders last year, in the United States 8700 persons died by the hands of the assassin.

## SUICIDE RECORD.

Health Commissioner Reports Many Cases of Self-Destruction in New York City.  
[BY THE ASSOCIATED PRESS.—A.M.] NEW YORK, Nov. 15.—One hundred and ninety-one persons committed suicide in New York City during the three months previous to July 1 last, says the report of Health Commissioner Darling, sent to Mayor McClellan today.

Sixty-seven persons were killed by electric cars during the quarter, forty-one of the total number being killed in Brooklyn.

The total number of deaths by accident and negligence during the three months was 965.

## POLICE NAB PICKPOCKETS.

TERRIFIC BATTLE ON TRAIN.  
[BY DIRECT WIRE TO THE TIMES.] BOSTON, Nov. 15.—[Exclusive Dispatch.] "Doc" Harris, a notorious crook known from the Atlantic to the Pacific, and in Europe, was arrested here yesterday with pals, after a terrific battle on a crowded elevated train.

The men with him include Charles Ray, of Chicago arrested over fifty times, and "Big" Arthur Lee, a notorious New York pickpocket.

They were picking pockets. All have records extending back many years and covering many cities.

## ROBBER STABS OFFICER.

USES DEADLY DICK.  
[BY THE ASSOCIATED PRESS.—A.M.] SAN FRANCISCO, Nov. 15.—To escape arrest after the commission of an alleged robbery, Thomas F. Kelly plunged a dirk into the breast of Frank Maistick, who attempted to detain him today.

Maistick, although badly wounded, held fast to his prisoner and turned him over to Policeman Kruger, who, after directing the removal of the wounded man to the hospital, took Kelly to the Harbor police station and booked him on charges of grand larceny and assault to commit murder.

## Save Close to a Half on Women's White Dresses

STYLES FOR EVENING WEAR

About 75 dresses will be out today at prices that will make quick choosing. Some at close to half, others at a full half. Dresses of lawn, tulle, organdie—yes, and pretty ones of cotton net—all in white. True, some of them are a little soiled, but then they are washable, and think of the saving. We've made these decided prices for a quick clearance. They'll go like a flash, too. Some are prettily trimmed with Val. edges and insertion, others embroidery trimmed, then some with round length skirts, or pretty dresses of net with muffs drop skirt. Styles are numerous, long and short sleeves. They'll make pretty party dresses. Really you couldn't buy materials alone for what we've marked the finished dresses. Hurry today for the second floor for best selection.

BY DIRECT WIRE TO THE TIMES.  
TRENTON, N. J., Nov. 15.—[Exclu-  
sive Dispatch.] The United Explora-  
tion Company, with a capitalization  
of \$10,000,000, was chartered today. It  
is to do a general mining business.  
The incorporators are Richard F.  
Tully, Thomas W. E. Middleton and  
William C. Sherwood.

Another big concern chartered here  
was the Nevada Central Railway Com-  
pany, with a capitalization of \$750,-  
000. The concern is to build a rail-  
road in Nevada to connect with the  
Southern Pacific system.

California Woman, at International  
Congress on Tuberculosis, Gives  
Practical Suggestions—White  
Plague Rare in India, Where Child-  
ren Breathe Purely.

BY THE ASSOCIATED PRESS.—P.M.

NEW YORK, Nov. 15.—The conten-  
tion that alcohol is beneficial in treat-  
ing tuberculosis was declared to be  
fallacious by Dr. T. D. Crothers of  
Hartford, Ct., at the International Con-  
gress on Tuberculosis today. He de-  
clared that, upon the contrary, alcohol  
is really more dangerous than the  
disease it is given to cure.  
Miss Emily Noble of California of-  
fered practical suggestions for the pre-  
vention of tuberculosis among children.  
"I had the good fortune in 1900 to be  
sent from San Francisco to Madras to  
make certain investigations on light  
and X-ray therapeutics with a great  
deal of machinery and apparatus,"  
said she. "I found that in India, with  
a population of 400,000,000, the children  
are singularly free from tuberculosis  
because they are taught to breathe  
properly as a daily exercise. And this  
in a country where there is great  
poverty and a great scarcity of water."

FLASHES FROM WIRES.

Announcement was made yesterday  
that the National Tube Company of  
Pittsburgh, a subsidiary company of  
the United States Steel Corporation,  
had received an order for 450 miles of  
eight-inch pipe for a pipe line to con-  
nect the Indian Territory oil field with  
the refineries at Port Arthur, Tex.  
The outlay for the pipe line, it is ex-  
pected, will amount to about \$6,000,000.  
Plans for the combination of the  
majority of the principal fish dealers  
of Boston into one concern to be known  
as the National Fisheries Company,  
said she. "I found that in India, with  
a population of 400,000,000, the children  
are singularly free from tuberculosis  
because they are taught to breathe  
properly as a daily exercise. And this  
in a country where there is great  
poverty and a great scarcity of water."

A curious sale was made at auction  
in Real Exchange yesterday. It was  
No. 11 in the Grace Church, New York,  
and it brought \$745. The pipe was sold  
by the estate of Francis Jones. An-  
other sale that attracted attention was  
that of thirty shares of stock of the  
Ecody Motor Company, which once at-  
tempted to manufacture a perpetual-  
motion machine. The stock brought \$1.

## QUAINTEST CAMPAIGN IS BEGUN BY LOS ANGELES' NEXT MAYOR.

Dr. Lindley on Fred, his black charger, after a brisk morning ride yesterday, before starting on the charming auto run among his friends.

R. LINDLEY began one of the quaintest political campaigns in history yesterday. He has lived here so many years that his method of campaigning is unlike any other. He plunges into queer places you never heard of and meets people of whose existence you never dreamed. Some of it has all the charm of a tour through quaint corners of Europe.

At the end of the day you go to bed tired out with a hazy recollection of strange little Italian hotels kept by queer little bobbing signoras, of odd, unworshipful little parish priests who make toy houses out of soap boxes, of mechanics from the foundries with great bare arms and moon-day pipes, of little suburban bunks on the outskirts of the city, railroad men, and political managers.

His campaigning is more like a friendly round of calls from the family doctor than the working of a professional politician.

Wherever he goes, some one is sure to come out and grip him by the hand.

"Doctor, do you remember when you saved my little girl when she had scarlet fever?"

"Howdy do doctor, I'm the man whose wife you cured that time."

Sometimes it is a banker, and sometimes it is a teamster, and sometimes it is a peon.

HOSPITAL FIRST.

His day began at some unearthly hour of the morning with a brisk horseback ride on his big charger, "Fred," who carried him from the Lindley home to the California Hospital.

For an hour came crisp, fresh-gowned capped nurses in blue and white, and matrons of the different

wards of the big hospital, making reports receiving instructions. Doctors honked up to the door in their autos and came into the office, pulling off their gloves and chatting over their cases; then scattered to the different operating rooms and to the still, white sick rooms.

With the swift, untruffled skill of long experience, Dr. Lindley wound up the big hospital and set it going for another twenty-four hours. Then for politics.

One of the secretaries was putting on a clean collar in an anteroom, two little jim crow politicians were lounging around looking as busy as possible; the campaign manager was receiving reports over the telephone and issuing his orders for the day. Several reporters were waiting around rather aimlessly.

Dr. Lindley's voice was heard down the hall; the central committee headquarters sprang into sudden life. The imitation politicians bubbled out; the political managers hung up the 'phone.

The fresh, cool cheerfulness and unruffled calm that he brought in suggested the physician in the consultation-room.

The chauffeur with a big sea-going automobile was waiting at the curb when the candidate came down in the elevator folding up the programme for the day on route.

The doctor's chauffeur is a character in himself. He carries nearly all the candidates; he is a youth of serene indifference to the politics and the life of his passengers. He skins the paint off passing wheels and carries Langdon and Gillett on their furious campaign tours with beautiful impartiality.

MAN AND POSY.

As he went dashing around town yesterday, there always seemed to be a man with a flower in his button

hole waiting at the gate—or at the church—for the candidate; to hand him around, and then pass him on.

As the automobile door closed behind the doctor, the chauffeur turned some kind of click loose and the green machine made a dive through the traffic down Spring street; up through the Broadway tunnel and the first long breath that anybody drew was in front of a pretty cottage overgrown with vines and roses on the edge of Highland Park.

The doctor was grabbed at the gateway by a man with a pink posy in his button hole. After he had gone in and met the wife of the pink carnation and admired the family painting, the candidate was escorted out through the garden and across the street to the residence of the young minister of one of the big Protestant churches in the southwest part of the city.

They talked pleasantly a little while, and the doctor climbed in the automobile with the man with the pink carnation and went tearing down the street to the home of a well-known real estate agent of influence.

On the way they passed a knot of men who were standing around a pumping fire engine. Dr. Lindley stepped out of the automobile and spoke to them. A little farther on he stopped again to hand his cards to two men who were waiting for a street car.

One of them timidly poked out his hand for the card, as though he were afraid it might bite; the other took the card with ponderous solemnity, as though it were a very serious matter. When the car whirled by a little later, both the men were earnestly reading the little circulars and the solemn man took another solemn and portentous look out of the car window at the doctor. The look was one of momentous but sepulchral approval.

Soon after that the auto turned north again and drew up in the midst of the business town that clusters around the corners of Highland Park.

Together with the man of the pink carnation, the candidate went into nearly every store and office. The men that he met are the solid, substantial men who form the flower of any city's life. The reception extended to Dr. Lindley from these men was most flattering and gratifying.

PERSONALITY INSPIRES.

Although he is very quiet and says very little, there is something in the personality of this physician that inspires men with confidence. Dr. Lindley picked up votes during this little tour as a snowball picks up snow.

When they got through with the last store, the doctor took a look at his watch and another at his programme and the chauffeur knew he would have to turn it all on; he had to hurry.

After a career of skidding around corner and ducking between wagons and jumping car tracks, the auto moved up in front of the big Lewellyn Iron Works where at least a hundred workmen with bare arms and in overalls were sitting around upon steel girders and piles of material.

Little "Billy" Lewellyn, who is one of the most charming of men, shook hands and went bustling back into the vast bowels of the foundry which extends over acres of ground. It was amusing to see the tact with which he turned out the men for the meeting.

Without any semblance he managed

## FINE POINT RAISED FOR LOT BUYERS.

THAT a "contract of sale" is not to be construed as an option to be abandoned at the will or caprice of the holder, is the point to be determined by the Superior Court of Los Angeles county.

The first of a long string of civil suits for the collection of money due on contracts of this description, involving Ocean Park and lots have just been brought. In the complaints in the suits already instituted, the contention is prominent that persons who have negotiated for the purchase of beach property on the partial-payment plan did not pay for an "option," as they evidently supposed they were doing. Purchasers under such contracts are held for the payment of interest, taxes, and deferred payments if the plaintiffs win in the litigation now commenced.

In any event, there is a surprise in store for those who made the payment of the first installment and then defaulted, when the property valuation along the strand ceased to soar skyward. The purchasers who evidently entertained the belief that they could "drop out of the game" by simply losing the money advanced as a first installment, on the purchase price, or presumed they would be released from further obligation by making an assignment of their interest to a third party, may be mistaken.

The question is a delicate one and is of interest to hundreds of purchasers and sellers throughout the country. Thousands of contracts similar to those involved in these suits have been entered into during the recent mania for subdividing acreage into town lots. As property values have not, in all instances, continued to advance, the adjudication of these actions will be watched with interest.

Complaints have been drawn in 104 cases on a single strand subdivision at Ocean Park and in several instances suit has already been brought. The suits are to compel the payments of installments due under a provision of the contract which stipulates "that if the party of the second part shall fail and make default in any of the payments of principal, interest, taxes or assessments, then the whole sum remaining unpaid shall immediately become due and payable at the option of the party of the first part."

When the property in question was subdivided and offered for sale the prevailing terms were one-third cash and one-third in one or two years. The suits now brought for the second payment of one-third, together with accrued interest. The average price at which the sales were made was about \$1000 a lot, but as a number of contracts were entered into by the same individuals, judgments are now asked against certain of the defendants in sums as great as \$100,000.

## CROOKS' GANG SPOTTED OUT.

San Francisco's Worst Try to Operate Here.

Police Warn a Lot of Them to Clear Away.

Clever Swindlers Come to Wrong Field.

An invasion of bunco men—among the smooth crooks, some of the cleverest confidence workers in the West—was this week repulsed by Los Angeles police detectives. A small army of "sure-thing" artists fled San Francisco when the exposure of Abe Ruef and his methods began to shake the supports of that city's underworld. To Los Angeles, always a longed-for field of operations with this class of criminals, a round dozen came—keen-eyed, well-groomed and suave.

The photographs of all were taken the other day by the police identification bureau. And all got orders to leave town. Should any choose to disregard the command they will be arrested on sight.

The nine members of this coterie whose pictures are here reproduced are known to the police as "old-timers," well versed in their craft—the most difficult of criminal callings to master.

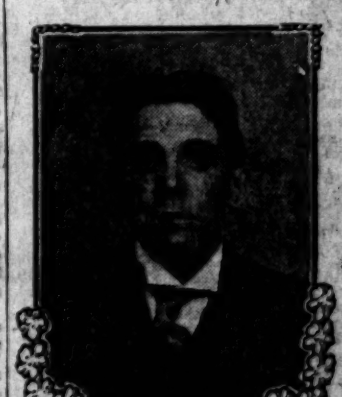

## SKYSCRAPER FOR BROADWAY.

Cummings Buys Between Fifth and Sixth Streets, Will Rear a Large Office Building.

W. E. Cummings, the shoe man, has purchased for \$100,000 cash, from Adolph Klau of San Francisco, a lot on the west side of Broadway, between Fifth and Sixth streets, containing a two-story brick building, Nos. 551-551 1/2-552. The lot is 41 feet front by 129 feet in depth.

At the expiration of the present lease, next year, Mr. Cummings intends to tear down the building and rear an eight or ten-story office structure, the ground floor of which he aims to fit up as one of the finest shoe stores in America.

Adolph Klau paid \$152,500 for this property about eighteen months ago. The sale was made, both to Mr. Cummings and Mr. Klau, through the agency of R. A. Rowan & Co.

## NIGHT IN A SUMP HOLE.

Celebrant at Democratic Banquet Pulled Out of Crude Oil Bath Yesterday Morning.

"Bah for Harper."

That is the last remark W. L. Vetter remembers having made at a Democratic banquet and jollification Wednesday night.

His next sentence was, "Where am I?" A group of grinning oil-well pumpers answered the question, for they had just pulled him out of a sump hole under a derrick at Ramona and College streets at 9:30 o'clock yesterday morning.

Vetter had Democratic joy smeared all over him in the form of sticky oil tar. Half his face and head lay buried in the amber fluid, and his clothes were caked with the stuff.

"I would not have my friends know of this for \$100," was Vetter's second remark, as he surveyed the begrimed appearance of his clothes. The pumpers helped him scrape the oil from his garments, but some were past anything but a week's soak and a steam clean. The men loaned him a shirt, coat, hat and an undershirt. His discarded clothes were still hanging on a board when a reporter visited the scene of Vetter's downfall.

How Vetter ever reached the spot where he was found is a mystery. All about are oil derricks and tanks, with sump holes in between. The nearest house is some hundred feet away, and he must have climbed a steep hill to get to College and Ramona streets. From the surroundings it is evident that Vetter rolled down a small embankment to his ozy resting place.

LOSER, NOT ALLEGED THIEF.

Through an erroneous report from police headquarters an item was published to the effect that Mr. Nemanovsky had been arrested on the charge of having stolen cloth from a tailor shop at No. 234 South Main street. The fact is that Nemanovsky is proprietor of the place, and the man from whom the cloth was stolen, was

**TRUTH ABOUT NEURALGIA**  
Efforts to Get Relief Often Unsuccessful.  
PROOF THAT DR. WILLIAMS' PINK PILLS HAVE CURED IT.  
An Indianapolis Man Tells How He Suffered and How He Became Well Again.  
"When I was a boy of sixteen," says Mr. Otto H. Rose, a retired grocer, of 1228 Lexington Ave., Indianapolis, Ind., "I met with a serious accident which injured the bone of my head over the right eye. I recovered from the accident to all appearances, but not many years after I began to have intense pains in the injured bone, which came on every year and would last from a few days to several weeks."  
"I consulted the doctors, who told me that I was suffering from neuralgia. The sight of my right eye was affected, so that at times I could scarcely see out of it, while both eyes watered constantly. During these attacks I was often dizzy from the terrible pains. The pains came on every morning and passed away at noon. I never suffered from the pain at night."  
"I tried without success to get relief until a friend told me to try Dr. Williams' Pink Pills. When I had taken a few boxes I felt the pain growing less intense and in a much shorter time than I had hoped for. I was entirely cured. I have recommended the pills to several persons, who have used them with good results."  
"My wife uses Dr. Williams' Pink Pills for nervous headaches and finds them the best medicine she has ever used, as they give relief when all others fail."  
Dr. Williams' Pink Pills have cured neuralgia, nervous headaches and prostration, dizziness, partial paralysis, St. Vitus' dance and locomotor ataxia, because they feed the nerves and give health to every tissue of the body. They are unusual as a blood builder and purifier and are especially valuable in the above nervous diseases and such blood diseases as rheumatism, anemia, after-effects of the grip and fever, because they not only reach these diseases at their root but they start right in to tone up the whole body.  
A booklet entitled, "Nervous Disorders," will be sent free upon request to any one interested.  
Dr. Williams' Pink Pills are for sale by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

BAREFOOT SNEAK SHOOT.  
Works With a Flash Light and Fires at His Victim When He Is Discovered.  
Hereafter E. G. Traversy of No. 223 East Adams street will probably regret that he be awakened with a kiss or by a fir crawling on his nose rather than to sit up in bed winking his eyes out of a sound slumber and have a barefoot burglar snap a flash light in his eyes, take a shot at him, and then steal his trousers.  
The latter experiences came to him yesterday morning about 3 o'clock. Along about the time the milk wagons begin to make morning hideous, Traversy was awakened by a noise in his room, and in the half darkness, saw a man. Traversy raised up in bed on his elbow and yelled to the fellow to get out. The visitor did, but when he heard the voice he turned the flash light on Traversy, fired a shot at him from a pistol, grabbed Traversy's trousers from a chair, and jumped out a window in the bathroom. Traversy ran to a window in time to see the thief going through the pockets of the trousers, and then throw the garment on the lawn and escape into the darkness. He carried away about forty dollars.  
In all probability this is the long-sought-for barefoot burglar, for shortly after Traversy's adventure a barefooted sneak made his appearance at the home of J. W. Hood, at No. 800 East Twenty-eighth street, and forcing an entrance through a window, made away with Hood's watch. There were barefoot tracks around the Hood house that correspond with those at the Traversy place, and the police believe the same crook did both jobs.  
**HYOMEI CURES CATARRH**  
Costs Nothing Unless It Gives Relief—Sold Under Guarantee.  
In many instances Hyomei has cured catarrh where the patient has suffered from childhood. Quite a few people in Los Angeles, who have been unable for years to get a good night's sleep on account of the disagreeable tickling and dropping at the back of the throat, have obtained quick relief from a few treatments with Hyomei, and the continued use has made a complete and lasting cure.  
There is no stomach dosing when one uses Hyomei. Simply breathe its medicated healing through the throat, and that their lungs are free from all catarrhal germs will be killed and the mucous membrane will be healed.  
A complete Hyomei outfit costs but \$1, sufficient for at least two weeks' treatment, making it one of the most economical methods of curing catarrh. If the outfit does not complete a cure, extra bottles of Hyomei, if needed, can be bought for 50 cents. Remember that there is no risk in buying Hyomei. It costs nothing unless it cures.  
All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give you the case the best care and attention, and write you a letter of advice without charge. The R. T. Booth Company, Buffalo, N. Y.

**Pain**  
Wears Out the Nerves.  
Do you realize that pain is weakening, and exhausts your vitality? Don't you remember how completely worn out you felt after that last attack of headache, neuralgia, backache, periodical or other spell of suffering? Nearly every case of inflammation, apoplexy, paralysis, epilepsy and insanity is directly due to the weakening influence of pain upon the brain nerves? For this reason every one who suffers from pain of any kind should not fail to get relief as quickly as possible.  
You can do this by taking Dr. Miles' Anti-Pain Pills—others do.  
"I have used Dr. Miles' Anti-Pain Pills for years, and can say they have never failed. I always keep them in the house, in fact I had rather be without sugar than the Pills. Previous to using them I had always suffered with sick headache, sometimes being in bed for three and four days. I had tried nearly everything I ever heard of, none would seem to help at first, but after a short time the effect would wear off. It is five years since I began taking Dr. Miles' Anti-Pain Pills, and the results are as good as all first."  
MRS. W. H. MARSHALL, Sopria, Colo.

## FOR MAYOR,

## DR. WALTER LINDLEY.

Independent Republican Nominee.

## Pen-points

As usual, all the candidates claim to be "the people's choice."

From Postmaster Bigelow's point of view the President is spending all unaccountably long time on the business of Panama.

The principal letter spent in Ohio this morning will be the game of trying to approve John D. Rockefeller with the four walls of a jail.

A seat on the San Francisco Stock Exchange is now quoted at \$10,000. That a seat on the Board of Supervisors is held at even higher prices.

Even when the President is on the high seas he is not out of American territory, on the principle that the high seas aren't foreign territory.

It is true, as officially stated, that "one-third of the fire insurance companies are operating on pure nerve," the nerve ought to be at once extracted.

"The prunes is food for the mind as well as for the body," says the New York Mail. The prunes of it are the men and women that California gives to the world.

The strange thing about Cuba is that while she doesn't want the United States to annex her, she is doing everything possible to make that annexation inevitable.

Being inclined to wobble, it is of course fortunate that Mr. Gates is a man who is not after the people might have chosen him to be the Mayor of the town.

While the President is looking into the question of Jamaica labor on the isthmus, the isthmus of the Louisiana will doubtless look a little into the question of Jamaica labor.

When the new divorce law comes up for passage in the Senate, it should receive expert attention, owing to the experience that several of the members have had along that line.

The French do Americans an injustice in claiming that we work twenty-four hours a day. Don't they know that Sam Campers wouldn't allow us to do that, even were we so inclined?

Seeing that we can't secure a sufficient number of men to man the ships we have at present, perhaps Congress is justified in letting up on the building of any more new ones.

Just how long the average citizen will allow himself to be chased for his life over street crossings by impudent automobiles we cannot say, but we have a hunch that it won't be very much longer.

To the small of the inland regions many automobiles are now adding a new terror in the form of a street wailer that sounds like the wail of a lost soul. Civilization is becoming a different thing to put up with.

Having discovered that the President of the United States is deeply interested in finding out why the relief funds are \$1,000,000 short, every San Francisco grafter not yet in jail has taken to wearing "the joyless American face."

Democrats who have the interest of Los Angeles at heart will, for that reason, vote for Dr. Lindley. Anybody who has no ticket of their own in the field, what is claimed to be the Democratic ticket is nothing but a Socialist ticket.

The Standard Oil Company certainly ought to be ashamed of itself for offering an Ohio Junior \$200,000 a year. The idea of a great big rich concern holding out a meekly-bait of that proportion. No wonder the Junior indignantly declined to accept it.

Yesterday England had the biggest battleship in the world. Today Japan claims the battleship. But the United States will soon have the biggest boat of all. At this rate the oceans will yet have to be enlarged to accommodate the size of the ships.

Following the retention of the Republican party in power by the action of the late elections, wages are being raised by employers all over the country. Mr. Bryan says we are making a great mistake in keeping the Republican party in control.

One platform upon which Candidate Hearst stands out from the Socialists themselves in his Socialist utterance. Los Angeles can't take chances on that sort of thing, no matter what claims Mr. Hearst may personally have to sanity and civic decency.

An effort is being made to take away the hands of the Crookettes in Oklahoma. The argument is advanced that when these lands were ceded to the Cherokee by the government it was not known they were of such great value. That's good logic as between a white man and an Indian. It is also what would cause an Indian to regard a white man as a thief and a liar.

## IN THE BOTTOMLESS PIT.

The Evening News, owned jointly by the electric power companies and J. D. Hooker, which has opposed the Owens River project viciously, mendaciously and slanderously for months, has the effrontery to beslobber the Board of Engineers, after sneering at the members and insinuating that they were dummies put up by "criminal conspirators," and the audacity to advise them as to the manner in which they shall conduct their examination and frame their conclusion.

Stily interpolated in the columns of hypocritical bosh are the false statements and perversions of fact which have become the wretched little sheet's stock in trade. The impediment is that the city owns only 6000 inches of water in Owens Valley is repeated, the 200 miles of aqueduct are stretched to 252 miles; the cost estimate of \$50,000,000 cost, invented by Engineer Sammy alone, is harped on; and the ten miles distance from Tehjunga to the city headworks is falsely stated, as usual, at 40 miles. Some allowance is to be made for the organ's ignorance of the Owens River conduit plans, but after making all allowance possible on that score, the sordid mendacity and civic depravity of the outfit are revealed.

Here is the milk in the cocoanut. The News craftily suggests to the engineers that it would be advisable to build down from Owens Valley about 5000 inches of water "in pipe line." There are two reasons why the News has been persistent in asserting that the city owns only a small flow of water and in arguing that it be brought down in a pipe instead of a conduit. The first is that the power companies owning a half interest in the News desire that the amount of power developed from the fall of water shall not be sufficient to affect their business. J. D. Hooker, active director of the paper's policy and Sammy's boss, is interested in the manufacture of steel pipe and wants to sell pipe to the city.

Was ever civic treason so debased, so squallid? It is the absolute fact that the only reasons for the existence of the Evening News are the sordid desires of the men who own it and the sordid desires of the men who work for it. They may go on deriving profit from the sale of power and watered bonds, and in the hope that a few miles of pipe may be sold to the city at a profit, these citizens of Los Angeles have inspired vicious assaults upon the very life of the city, and striven by monstrous falsehood, slander and misrepresentation to defeat the Owens River project. They have whispered the vicious threat that they would prevent the sale of the city's bonds by discrediting the project as undermining confidence in the engineers, and their journalistic prostitute has denounced the engineers and all persons concerned in the effort to save the city from water famine and stagnation as "criminal conspirators" and grafters.

Compare with men who would destroy the property and ruin the life and prospects of the community in the city live, all for a few dirty dollars. Benedict Arnold was a high-minded patriot. Their treason is not expiated, as was Arnold's, by monstrous egotism, wounded vanity and insane ambition. It is treason inspired by the lowest of human passions; avarice. The squallor of it turns the stomach.

And what of the creature who does their bidding, boasting all the while of his "sincerity" and his "stern sense of duty" in excuse for his lying and his foul abuse of good citizens who are striving to make Los Angeles a great and flourishing city? Contact with the rage of his dishonesty would soil the skirts of a street-walker.

SLANDERING SAN FRANCISCO.  
Rufus Jennings, chairman of the California Promotion Committee, upon the reorganization of that committee after the San Francisco earthquake and fire, appointed Pin Head McCarthy and O. A. Treilme as members of the committee. It was explained at the time that this action was taken for the purpose of stopping the mouths of McCarthy, Treilme and other jaw smiths of the unionist gang in San Francisco. While the promotion committee was exerting itself (supposedly) to bring colonists and capital to California, the labor gangsters were doing everything in their power to keep people away by circulating horrible tales of the conditions said to exist in San Francisco. Jennings professed to believe that by placing these misch-

breeders on the committee they could be induced to assist in the upbuilding and advancement of California, instead of doing their utmost to injure it.

If Jennings was sincere in this notion he made a great mistake. The union gangsters continued to befool their own nests, like birds of evil omen. They are still doing their best, by sending out false reports of conditions in San Francisco, to keep people away from that city, which is in sore need of workmen of all kinds to aid in the great task of restoration. According to these accounts, hollow-eyed West coast hunger and hopeless idleness stalk side by side through the shattered streets of the stricken city. It would be a terrible state of affairs—if it were true—as it is not.

The Labor Leader, a paper published at Lancaster, Pa., in its issue for October 27, declares that "officials of the trades unions of San Francisco, the labor papers of California, and public officials (labor union officials of San Francisco) all concur in the statement that there are more than enough workers of all classes in San Francisco to supply the demand." Also that "there have been sent out from the city, during the past few months statements from reliable sources warning workmen to stay away from San Francisco." It is quite true that such statements have been sent out from San Francisco, but it is not true that they are reliable. On the contrary all such statements are false and misleading.

The Lancaster publication quotes from what it calls "a reliable labor authority in San Francisco" to the effect that there are in San Francisco at the present time thousands of laborers—among them a large percentage of mechanics—who are not only idle but who are hungry. "They live," says the "reliable" authority, "on the scant scraps of charity, because they have to. There is no work for them and there is no material to work."

These misrepresentations are infamous. It is a well-known fact that there is a great dearth of workmen in San Francisco, and that many thousands could find employment there if labor conditions were free from interference by any dishonest and cowardly Pin Head McCarthy and O. A. Treilme. When several hundreds of misguided carpenters went out on a strike in Los Angeles a few weeks ago, the statement was freely made by San Francisco labor bosses that San Francisco could find work for the entire force of union carpenters, plumbers, plasterers, etc., in Los Angeles, at higher wages than they were receiving in Los Angeles, and that they would actually do the work.

It is estimated that at the present rate of work it will take from thirty to fifty years to rebuild San Francisco. But the union leeches who are in control there are not willing that free workers should come to help in the work, so they employ all sorts of lying devices to keep them out.

Employees in San Francisco who venture to advertise in an outside publication for men, are at once threatened with a boycott if they do not discontinue the advertisement. Their own harm and discredit, they usually obey the commands of the boycott gang, and thus bind tighter the hands of their serfdom. This, too, is infamous.

San Francisco will never be rebuilt while present labor conditions continue. The industrial despotism from which the city now suffers is doing more to retard the city's development and prosperity than did the twin calamities of earthquake and fire. The same gang that has practically ruined San Francisco is now trying to wrap its tentacles about Los Angeles. Shall we allow it to succeed?

THE TRANS-ATLANTIC GOLD TEE-SAW.  
It has amazed observers, who are not by any means superficial in financial affairs, to have noted during the current year the enormous stream of gold that has flowed from England to the United States. The aggregate since the first of last January must have been, \$90,000,000. One-third of this came in the form of gold, after the burning of San Francisco, and another third in the first two weeks of the month of September.

It is not long ago, only a few weeks, since this stream of the yellow metal westward across the Atlantic stopped. It was checked by the unusual action of the Bank of England in raising its discount rate step by step until finally on an emergency call of the board of directors of the old lady of Threadneedle street, the "almost unprecedented rate of 6 per cent. discount" was put upon loans by the bank. The discount rate in Germany immediately advanced to the same figure and thus the flow of gold out of Europe to America was brought to a standstill.

This flow one way had barely been checked when lo, a hurry call came across the ocean and the stream started the other way. About ten days ago London in one lump the sum of \$15,000,000 in gold. This transfer was made by cable, a thing as unusual as the raising of the discount rate to 6 per cent. by the Bank of England. As compared with the transmission of this immense sum of money from New York to London by the usual method of exchange by letter, the transmission by telegraph cost something like \$15,750.

What started this yellow stream backward across the Atlantic was the selling on the part of English holders of American securities. The stock jobbers of Wall street had been drawing a great treasury of gold from London to New York in order to finance easily the enormous transactions in stocks that have characterized the past summer months. Of course, with this activity and the keeping of in-

terest rates fairly low by means of this influx of gold, the price of stocks naturally went up. The London holders of American securities seem to have shrewdly seen their advantage and when the stocks were tossed up to the highest level by the gambler on the New York Stock Exchange, the shrewd Englishman who had bought them on a considerably lower level a few months before let the American gamblers have these securities back again and immediately called for a return of one-sixth of the great mass of gold that had been taken out of London during the previous few months.

There must have been urgent need of money in London to sacrifice \$15,750 in getting this transfer made in half an hour instead of in seven or eight days. Of course, the discount rate still maintained by the Bank of England of 6 per cent. makes the borrowing of money at that center almost prohibitory. The usual rate for money at the Bank of England is about 3 per cent. and when this interest rate is doubled it naturally makes a very loud call for funds.

These English operators seem to have figured the matter out and determined that they could better pay 11-1/2 per cent. extra for the telegraphic transfer of the money than go to the Bank of England and borrow of them the sum wanted at the rate of 6 per cent. per annum. And yet the advantage they gained was only one of about eight days.

The whole subject has a very important bearing upon the present conditions of the financial world. These English operators seem to have figured the matter out and determined that they could better pay 11-1/2 per cent. extra for the telegraphic transfer of the money than go to the Bank of England and borrow of them the sum wanted at the rate of 6 per cent. per annum. And yet the advantage they gained was only one of about eight days.

A practical way out of the difficulties is not easily found. We want to see this development go on. It is particularly important for us here in the Great Southwest where so many undeveloped resources lie all around us. We need muscle and money at every point throughout thousands of miles of territory, to develop mines, run branch railroads to them, open quarries producing building material, etc., etc., and to do this we need money. We need money to expand our commerce overland and across sea, make homes for the hundreds of thousands who are coming here by year, and build up great enterprises for all time to come. To preach moderation to the gamblers on the stock exchange in New York would be playing in the role of the old Danish King who told the tide to roll backward. Yet the situation really is not without its dangers. It is an era of reckless speculation, of "quick returns," and it is "quick returns" that our manufacturers, our merchants, our traders of Los Angeles, make their profits. Long time loans are not as profitable to either the bank or the borrower in ordinary commercial business. Such loans are apt to lead the borrower into want of diligence in collections, and prompt collection of half of the loan is a successful trade of any kind. It's the old story of the gambler's ruin.

Perusal of the tables which follow will demonstrate that the national bankers of California have preferred, particularly during the past ten years, the collecting of the life-blood of the people, to the safety of the deposits entrusted to their care. As a class the national bankers of California are equal in judgment and ability to bankers anywhere.

## WHAT I KNOW ABOUT DR. WALTER LINDLEY.

BY GEORGE W. BURTON.

WHAT is to be said here is purely an expression of personal opinion founded upon my own acquaintance with Dr. Lindley, Republican candidate for Mayor of the city of Los Angeles.

I have known Dr. Lindley for over twenty years. For the greater portion of that time I have enjoyed a close personal acquaintance with him. This acquaintance was particularly intimate during the time he was superintendent of the State School at Whittier.

My own occupation for eighteen years was almost exclusively in the profession of school teacher. During the time Dr. Lindley was superintendent of the State School at Whittier I paid that institution frequent visits, and had every opportunity of observing the management of the school, the treatment of the boys, the discipline and everything connected with the superintendency.

Without being at all egotistical I can say without reservation that I know more than a little about this business of teaching school and of disciplining young boys and youths. I say this, not from my own judgment, but from the testimony that hundreds of people here to my own success as a teacher and disciplinarian.

Now from this acquaintance with Dr. Lindley, with his management of the State School at Whittier, the judgment reached by me in the character of an expert is that no management or discipline could be of a higher grade of efficiency than was found at the State School at Whittier during the time of Dr. Lindley's term as superintendent of that

## SNAG AGAIN FOR LIGHT PLANT.

### LITIGATION IS IN THE WAY IN PASADENA.

Plaintiff Asks That the City Be Restrainted From Applying the Extra \$60,000 Collected in the Form of Municipal Taxes to the Installation of the Plant.

Office of The Times, No. 26 S. Raymond Ave.

PASADENA, Nov. 15.—The administration has struck another snag in its attempt to furnish the city with a municipal lighting plant, and it now looks as if considerable litigation would result before the matter can definitely be settled. The suit threatened by Walscott Root and others, asking that the city be restrained from applying the extra \$60,000 collected in the form of taxes to the installation of a lighting plant, has been filed and the whole proceedings are again tied up pending the decision of the court.

In the plea for an injunction the petitioners call attention to the fact that the taxpayers of Pasadena voted to install a lighting plant and to pay for it by levying a tax of one mill. The petitioners claim that the city is now attempting to install a lighting plant and to pay for it by levying a tax of one mill. The petitioners claim that the city is now attempting to install a lighting plant and to pay for it by levying a tax of one mill.

The petitioners further claim that to install a municipal lighting plant out of the current taxes would be contrary to the provisions of the city charter, and therefore illegal. For these reasons a restraining order is prayed for in order that the proposed project may not be carried out.

The action of the petitioners did not come altogether as a surprise, as it is known that there was dissension in some quarters, but as the proceedings had been allowed to progress as far as they have, it was supposed that the city had concluded to let the matter take its own course. City Attorney Wood does not feel that there is any real danger that the city will be enjoined from installing a lighting plant, as he believes that the city is acting entirely within its rights.

There are other attorneys in Pasadena who do not agree with the stand taken by Judge Wood, however, and believe that the city has a very good case. It is certain that the city was not taken without due forethought at any rate, and the applicants for the injunction have made a careful canvass of the situation.

Whatever the ultimate outcome of the litigation may be, the immediate result will be to tie up all proceedings and to delay the completion of the plant, even though the final decision is in favor of the city.

### GRIEVANCE OF RANGERS.

The forest rangers of the San Gabriel Forest Reserve are making a careful inquiry in the case of the disastrous fire of Monday, but as yet without satisfactory results. It is generally thought that the blaze was caused by the careless handling of some bonfire, but who was responsible is not known. That some one was guilty of gross carelessness is certain, and if the identity of the person can be discovered, he will be prosecuted.

The rangers are complaining over the careless acts of some men who tried to help them Monday and say that their work was made doubly hard in many instances. Assistance is always welcomed, but the rangers state that they are quite able to do all the fire-fighting necessary, and that any volunteers are far more expensive when they are called in to help than they are when they are not.

On one occasion this man came within an ace of undoing all the work which the rangers had accomplished by calling a fire on a fire. The man was seen to throw a match into the brush, and the fire started. The man was seen to throw a match into the brush, and the fire started. ### FLYER STRIKES WAGON.

A serious accident was narrowly averted this evening when the Los Angeles-Pasadena "flyer" struck a dirt wagon on South Park Oaks avenue just north of the Terminal crossing. The wagon, which was carrying a load of lumber, was struck by the flyer, and the driver was thrown from the wagon at the time. The driver was injured and the horse also escaped without injury.

The disabled vehicle was a dirt wagon in the employ of the paving company which is putting in the asphalt on South Park Oaks avenue. The wagon had been driven up onto the tracks and, as the car approached, the driver was unable to get out of the way owing to the fact that the street was torn up. The windows in the front of the car were broken and there was considerable confusion among the passengers for a few moments. A crowd gathered rapidly around the scene of the collision and for a few minutes it was thought that some one might have been hurt.

### BANK CLERKS' SPREAD.

About 120 members of the American Institute of Bank Clerks met around the board at Hotel Maryland this evening to enjoy the hospitality of the Pasadena chapter of the society. Dinner was served in the dining room of the hotel and the rooms and tables were tastefully decorated. George S. Fitchell of the First National Bank delivered the chief address, taking as his subject "Note Payments." James S. Macdonnell of the First National Bank related some Canadian dialect stories and Clarence A. Wood of the Union Savings Bank rendered a number of songs.

### ANDERSON-VAIL.

A wedding was celebrated this evening when Miss Maud Vail, daughter of Sanford A. Vail of No. 612 South Park Oaks avenue, was joined in marriage to Louis S. Anderson. The ceremony was performed at the home of the bride's parents in the presence of

## GIRTH OF WAIST IS TOO LARGE.

### SO THE LORDSBURG MYSTERY IS NOT YET SOLVED.

No Abatement in the Interest in the Find of Feminine Attire in Live Oak Canyon—Parents Who Look for Trace of Their Wayward Daughter Seek in Vain.

Auction sale at Kuramanga's, 2 and 7 p.m. Dragon tea room now open.

Lordsburg, Nov. 15.—The excitement occasioned by the recent discovery of a woman's clothing in Live Oak Canyon shows no signs of abating. An old man and his wife drove from a neighboring town yesterday to investigate. Their wayward daughter disappeared several weeks ago and they hoped to find some clues here, but the girth of the waist of the woman who had disappeared was too large for their daughter and they returned.

It is thought that some woman abandoned her clothes in the canyon and, donning men's attire, joined one of the mining camps on the mountains above here.

### LORDSBURG BRIEFS.

W. H. Allen today sold his home ranch in La Verne to Jacob L. Minich, recently from Muncie, Ind. The deal was for \$500. The property, better known as the Rogers place, consists of five acres, one-half in oranges and one-half in lemons, with ten shares in the Live Oak Canyon Company. The deal was consummated by the C. W. Talbot Realty Company.

### SAWTELLE SAYS "YES."

Decides by a Large Majority in Favor of Becoming a Sixth Class City.

SAWTELLE, Nov. 15.—For the second time in a period of a year and a half, the settlement of Sawtelle today voted on the question of incorporation as a sixth class city.

### COFFEE FOR LONGSHOREMEN.

San Pedrans Refuse to Work Without Having Fragrant Drink Served Them.

SAN PEDRO, Nov. 15.—Pickles and coffee for a time this morning threatened to cause many gray hairs and much anguish on the coast side of the bay. Two days ago two carloads of pickles arrived at the Crescent wharf, and Supts. Mock and Ferguson have been trying to get them shipped to San Francisco. They were to go last night on the steamer Centralia, but were not taken on board. It was thought certain that they would be sent north on the steamer Melville Dollar, which cleared today, but Capt. Hansen refused to take them, as a guest of what started the flames with renewed fury and but for the prompt arrival of a team of rangers the entire wharf would have been swept by the flames.

### TO JOIN LOS ANGELES.

Petitions are being circulated here asking the Board of Trustees to call a special election to decide the question of annexation to Los Angeles. As soon as a sufficient number of electors have signed, the petitions will be presented to the board.

### NEW SAN DIEGO LINE.

The Nelson-Napier Navigation Company will put the new steamer City of Long Beach in commission tomorrow. This steamer is for the San Diego passenger and freight service and will have an average speed of seventeen miles an hour. This company also operates the launches Nellie, Fashion and J. C. Elliott between San-Pedro and Long Beach.

### PICO'S TELEPHONE LINE.

PICO, Nov. 15.—The barbed-wire fences in this section will soon be able to talk. At least some of them ought to be able to if Jacob Hanna, the lumber dealer here, has his way. Hanna has three yards, and is building a private telephone line between them. The medium of communication for a number of miles is to be the barbed wire. Hanna's line will go to the river, Pico and Newmark, and will approximate about half a dozen miles in length. Hanna's line will be the first in this section to use the fence for this purpose, although the plan has been used successfully in other places.

## HURLS VETERAN FROM THE CAR.

### LONG BEACH MAN INJURED BY CONDUCTOR.

Latter Declines to Honor Ticket Presented, and Upon Refusal of the Former to Pay Fare, Ejectment Proceedings Follow, With Alleged Violence—Vain Efforts for Settlement.

LONG BEACH, Nov. 15.—Rev. T. W. Lincoln of this city, ex-Methuist preacher, post commander of the G. A. R., and editor of the Wilmington Journal, is suffering from a sprained wrist and other injuries as the result of alleged brutal treatment at the hands of a Pacific Electric conductor.

Mr. Lincoln purchased a round trip ticket from Long Beach to Wilmington. On the return trip the conductor declared the ticket void and on Mr. Lincoln's refusal to pay cash fare, seized him and Eftman station literally threw him off the car. The ejected passenger boarded the next car and presented the rejected ticket, but Mr. Lincoln paid cash fare and retained the ticket. Mr. Lincoln reported the event and an attempt has been made by Claim Agent Harris and the offending conductor, Colwell, to settle the matter without success. Mr. Lincoln will probably bring suit for damages.

### HOTEL BIXBY COMMITTEE.

The directors of Hotel Bixby had a meeting this evening at which George H. Bixby, Jr., Charles R. Drake and S. Towns were named as a committee to confer with the contractor, Mr. Spaulding, about what is to be done with the building. The question as to who shall pay for the damage of the caving in of part of the structure was left unsettled.

### FIGURES ON TOWNS.

In his deposition made before Commissioner Leo Longley, sitting to receive depositions in the suit of H. S. Carver to compel the Salt Lake Railroad to build a draw lake through Slough, Maj. A. L. Sonderger attested the Salt Lake counsel's statement that under normal conditions, twelve tows, each consisting of two 2500 foot barges in tow of a tug could pass up the slough each day and could float from the harbor direct to Long Beach 5,000 tons of freight annually. This, said Sonderger, is a conservative estimate, as the slough could be made to handle double the freight and the capacity could be increased.

### SANTA MONICA'S SEWAGE.

Hearing to be Held Before Judge Conroy Why Septic Tank Has Not Been Built.

SANTA MONICA, Nov. 15.—Tomorrow is the day set for the hearing of the septic sewer suit before Superior Judge Conroy in Los Angeles. Under a writ of mandate the City Trustees are commanded to appear and show cause why they have not proceeded with the construction of a septic sewer tank on the ocean front at the foot of Bicknell avenue, it being alleged in the petition for the writ that municipal bonds had been voted for that purpose.

### HOLLYWOOD NOTES.

HOLLYWOOD, Nov. 15.—The funeral of John Scates was held last afternoon at the family residence. Rev. Dr. Walker conducted the service. The interment was in the Hollywood cemetery. The service was held at 2 p.m. at the residence of Mrs. Scates, 1000 N. Hollywood boulevard.

### VENETIANS TO MEET.

VENICE, Nov. 15.—A mass meeting of beach citizens is called to be held Saturday evening on Windward avenue. The purpose is to discuss the beach, with especially reference to sewers, sewage, garbage and railways.

## Free to Men and Women Too

### Do you want to be a big, husky man, with vim and power in your every action, with courage, self-confidence and ambition to "do things"? Do you want to get rid of that feeling of gloom, that weakness in your back, that nervous, worn-out feeling which unites you for business or pleasure?

Do you want to feel like a man all over, to hold up your head with the knowledge that you are the man that nature meant you to be?

We can do just as much for women as for men. We have thousands of letters from grateful women who had spent years and money trying to get relief from drugs and who came to us as a last resort and are cured now.

Why should you be suffering when you know that your friends and neighbors are being cured? Why the money you spend for drugs in a few months if invested in our treatment will assure you health and happiness for life. Don't you believe it? Then send for this book with the proof that we can give you, and you will be convinced.
